Parental Questionnaire – ONLINE SAFETY

Dear Parent/Carer

At school, we are aware that our children can be particularly vulnerable when it comes to Online Safety and that technology is changing at a rapid rate.

We would like to work with families to help our children become safe and responsible users of technology. As we approach Safer Internet Day 2018 we thought it would be a good time to ask families about online safety; your concerns and the best way school can deliver online safety workshops.

We are aware that certain times of the day are difficult for parents and that travelling distance can be a problem too. The purpose of the questionnaire is to try and find the best way that school can support families and to identify the main areas of concern.

If as many families as possible could fill in the questionnaire and return it to school as soon as possible we would like to prepare a workshop for families to coincide with our Safer Internet Week to be held in February.

Your support would be greatly appreciated and if you feel you could help with delivering workshops please get in touch with school.

Thank you

Bev Hennefer
